

Managed Transportation

A Trusted Partner for Full-Service Transportation Management

Managed transportation solutions from GlobalTranz enables you to focus on growing your business while utilizing GlobalTranz's experts to manage your freight. Whether you want to outsource your entire logistics operations or just a specific segment of your transportation needs, GlobalTranz will work as an extension of your team to design the right solution to fit your organization's needs.

GlobalTranz acts as your partner to provide supply chain planning, day-to-day execution and strategic recommendations to reduce your freight costs, improve your operational processes and give you a competitive advantage.

Value-Added Services

GlobalTranz delivers value-added logistics services, including:

Logistics Consulting & Analysis

GlobalTranz will analyze your current freight processes from shipment creation through delivery, including invoice management, and then design and implement freight management disciplines in alignment with your overall supply chain and business objectives.

- Supply Chain Discovery & Needs Analysis
- Modal Cost Analysis & Recommendations
- Performance Benchmarking
- Custom Implementation & Training

Carrier Procurement & Management

GlobalTranz will leverage carrier relationships, negotiated rates, and buying power within GlobalTranz's network of over 34,000 pre-qualified carriers to provide you modal options at the most competitive rates for your shipping needs.

- Carrier Vetting & Qualification Process
- Compliance Audits
- Bid Process Management
- Freight Cost Reduction & Contract Negotiation
- Fixed Tariff, Fixed-Lane & Spot-Market
- Carrier Performance Scorecards

Shipment Planning & Execution

GlobalTranz centralizes and tailors an approach based on your unique business rules across every step of the shipment lifecycle by utilizing GlobalTranz's proprietary cloud-based TMS to ensure the successful execution of inbound, outbound, and third-party shipments.

- Carrier Rating & Routing
- Shipment Optimization & Consolidation
- Order Tracking & Exception Management
- Purchase Order Management
- Vendor Inbound Freight Management
- Data Integration

Managed Transportation

Dedicated Account Teams

As an extension of your team, GlobalTranz's logistics professionals work hand-in-hand to provide supply chain planning, day-to-day execution and strategic partnerships that will reduce your freight costs, and improve operational efficiencies.

- KPI Scorecards
- Quarterly Business Reviews
- Value Creation Opportunities
- Executive Sponsorship
- Best-in-Class Industry Updates
- Continuous Improvement Implementation

Freight Bill Payment & Audit

As a leader in providing customized freight invoice coding, approval, payment processing and reporting solutions, GlobalTranz offers an outsourced method to better control and reduce your transportation expenses.

- Shipment-Level Audit
- Invoice & Delivery Settlement
- Automated General Ledger Coding
- Configurable Business Rules
- Online Summary Payment Options
- PO Compliance Reporting
- Shipper & Carrier Payment Visibility

Performance Management

Gain visibility into your freight spend with reporting tools that help you make data-driven decisions and positively impact your business. Track freight by mode, location, carrier and more. Get custom reports and quarterly consulting from your account team.

- Standard & Customized Reports
- Vendor & Carrier Metrics
- Business Intelligence Reporting
- Industry/Customer COGS Metrics
