

## Freight Consolidation Solutions

### Consolidate Your Advantage

To gain a competitive advantage, many shippers are turning to 3PLs that offer specialized freight consolidation solutions. Consolidation of multiple partial or LTL shipments, either from one organization or multiple businesses, can decrease costs, improve speed to market, reduce claims, provide complete visibility, create efficiencies, enhance control, reduce mileage, and capture critical business intelligence. Through GlobalTranz's proprietary technology, GTZconnect™, and our team of customer supply chain experts, we can leverage our customer density, carrier relationships, network of consolidation centers, and freight volumes to deliver real value for your organization.

## BENEFITS OF FREIGHT CONSOLIDATION

**Reduce transportation costs** and take advantage of predictable, per-pallet pricing.

**Reduce warehouse costs** by minimizing the labor needed to handle multiple LTL shipments.

**Speed order-to-delivery time** with shorter transits as compared to traditional LTL.

**Increased service levels** and improved performance.

**Minimize the number of touches** vs. the traditional hub and spoke LTL model.

As a result of fewer touches, **OS&D costs are mitigated.**

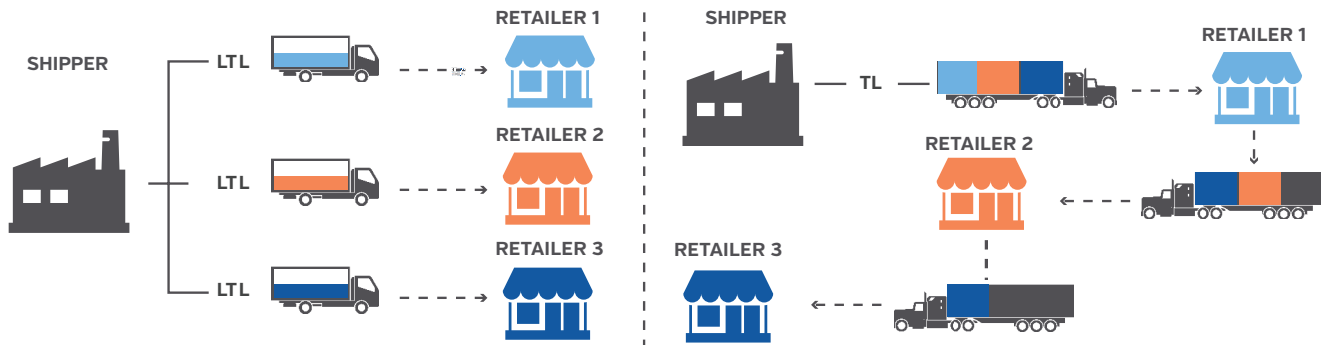

**Reduce chargebacks** resulting from missed delivery windows.

## PRE-CONSOLIDATION

## POST-CONSOLIDATION

### MULTI-STOP TRUCKLOAD

### CONSOLIDATION & POOL DISTRIBUTION

Consolidation can be utilized on both the inbound and outbound sides of your transportation network to drive efficiencies and create value. As an authorized GlobalTranz agent, we will work with you to understand your organization's needs and develop a customized consolidation solution for your supply chain challenges.

### EIGHT SIGNS CONSOLIDATION CAN WORK FOR YOU

- 1 Your organization regularly schedules a high number of LTL shipments, from one or multiple shipping points.
- 2 You regularly deliver to multiple distribution centers.
- 3 Chargebacks are cutting into profits.
- 4 You are receiving accessororial or detention charges from the receiver.
- 5 Lack of visibility and missed delivery times are affecting your relationships with your end-customers.
- 6 Decreasing transit times for shipments is one of your goals.
- 7 Your product is getting damaged in transit.
- 8 Meeting specific delivery times is a challenge.
